## Policy to Clarify Storm Water Management Exemptions

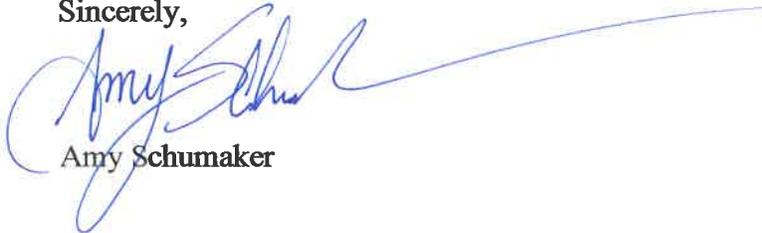

At the January 26, 2021 Planning Commission Meeting, the Planning Commission voted to create a policy to clarify the Morgan County Storm Water Management Ordinance Section 3: Applicability, Definitions, Exemptions, Waivers and Variances. Part (C) Exemptions (iii) “Activities that do not result in an increase in impervious land use area greater than 5,000 square feet and land disturbance greater than 1 acre.”

The policy clarification shall be determined as such: **“Proposed and existing activities on the site that do not result in a total of impervious land use area greater than 5,000 square feet and land disturbance greater than 1 acre.”**

This policy takes effect immediately.

Thank you for your attention to this matter,

Sincerely,

Amy Schumaker
